

When listing your site please make sure you select Starter Sites when listing

Below is a sample list for the clickbank sites we sell. Please edit to suit your own listing.

The first part gives the general information and I use godaddys valuation tool to see what they value the domain at. If it is a reasonable figure I include this there.

The second part informs them of the product promoting and the earning potential etc.

I then inform them of the benefits of the site and what they get and follow this up with what they need if they win the auction.
