

STEP BY STEP GUIDE

A quick guide for everyone showing the steps needed to get yourself up and running. Details on how to complete the various steps are provided in the various PDF's and Videos to be found on the Training Page. Read the Main PDF first and check the FAQ and Training pages.

Take out your own Hosting with a Main Domain Name if you do not already have these.

1. Download your websites from the Members Area and decide on which site(s) you are going to sell.
2. Choose a Domain Name relevant to the site and check it's value on Godaddy before purchasing.
3. Follow the instructions and install the site to the your hosting
4. Create your list in your autoresponder and add the email swipes for the product.
5. Create your form and edit the site as shown in the video.
6. Create a listing for the site in a text editor using the Sample Listing provided.
7. Create a buyers list in your autoresponder and set up a sign up page on your own Main Domain
8. Decide on what bonuses you are going to offer to the buyer. Set these up to be delivered to the buyer after he signs up to your buyers list.
9. List your site on Flippa
10. Keep an eye on your listing answering any questions posted.
11. If the site sells the 1st time follow the After Sales Guide
12. Check the FAQ if the site does not sell.
13. Rinse and Repeat listing as many sites as possible
14. Send Randy or Anton testimonials when you make sales (Ok, not compulsory but who wants to end on Step 13? lol)
